In his retirement woodworking and antique and collectable cars were his passion. Dad (Poupah, Papa) would share his love of antique and collectible cars with his children and grandchildren.

Many in the community will remember Dave for his gifts of hand made wooden bowls that he would produce in his shop.

If you knew Dave, he was always your "friend on call" to help you with any projects or things that needed repairing.

A family service will be held at a future time.
