

REMEMBERING
Susan Louise Butler
June 2, 1957 - January 26, 2023

Sadly, Susan lost her battle with Cancer. Throughout her journey she showed great courage with a positive upbeat attitude. Susan lived life to the fullest even between her chemo treatments. She always had time to stop and chat with people during her walks and outings. She didn't hesitate to share her smile with others, often

adding a bright spot to their day like a ray of sunshine.

Susan is survived by her sister Marny [Sandy] Nassichuk, niece Erin Nassichuk [Matt] and great nephew Emerson. Her Uncle Vernon [Shirley] Butler and many close

cousins. She was predeceased by her parents John Butler [1982] and Margaret McInnes [1998].

Although Susan had worked or volunteered at many places over the years, her favorite career was working with children. She spent many years working/volunteering

at Cranberry Children's Centre, where many friendships were made.

A special Thank You to all of Susan's health team, who supported her on her journey - friends, support workers, Home Care Nurses, Doctors, nurses, nurse practitioner, Oncology department, Emergency room and the 4 th floor nursing staff,

as

well as the BC Cancer Clinic. Without your help and awesome support and care for Susan her journey would have been more difficult.

A celebration of life will be held in the spring of 2023.
